Full-Stack Developer focused on building scalable, production-ready systems across frontend and backend. 5+ years of experience delivering applications using React, React Native, Node.js, Express, PostgreSQL and MongoDB. Skilled in designing RESTful APIs, real-time architectures with [Socket.io](#), and handling data modeling, authentication, and performance optimization. Comfortable owning the full development lifecycle — from UI/UX implementation to backend logic, deployment, and system reliability.

Experience

Full-Stack Freelancer (2025 - Presente)

- Develop web and mobile applications with React, NodeJS, PostgreSQL and more, delivering complete solutions for diverse clients.
- Implement scalable architectures, API integration, and performance optimization, ensuring reliable and high-quality products.
- Manage full project lifecycle, from planning, design, and development to deployment, guaranteeing on-time delivery and high client satisfaction.

Frontend Developer at Ouriversaria Luciano B. (2023 – 2025)

- Built modern, responsive interfaces using React, TypeScript, and TailwindCSS, focusing on high-impact UX/UI.
- Worked on complex API integrations and state management with Redux Toolkit, delivering scalable solutions.
- Collaborated in agile teams, optimizing workflows and reducing delivery time for critical projects.

Web Development Intern at TechWave Solutions (2022 – 2023)

- Developed reusable and responsive components using React and Styled-components, accelerating internal project development.
- Collaborated with designers and backend developers to ensure visual consistency and API integration.
- Participated in performance optimization and usability testing, improving overall user experience.

Education

IT Technician, CEPNSA (2019 - 2024)

IT training focused on Hardware, Software, and Networks.

Skills

- JavaScript
- React (Native)
- Node.js
- Express
- PostgreSQL
- TypeScript
- Socket.io
- AI Integration
- MongoDB
- NextJS
- Redux Toolkit
- Zustand
- Context API
- (S)CSS
- Advanced TailwindCSS
- Jest
- Cypress
- Git & Github
- Pnpm, Npm, Yarn
