Front-end Developer specialized in building modern, responsive, and high-performance web applications with React, TypeScript, and Next.js. Experienced in developing scalable user interfaces, integrating APIs, managing complex application state, and delivering intuitive user experiences. Familiar with back-end technologies including Node.js, Express and PostgreSQL, enabling effective collaboration across the full product development lifecycle.

Experience

Full-Stack Freelancer (2025 - Present)

- Built and delivered web and mobile applications using React, Node.js and PostgreSQL for clients across different industries.
- Developed responsive user interfaces, integrated third-party APIs, and implemented back-end services to support business requirements.
- Managed projects from requirements gathering and UI implementation to deployment and maintenance.

Front-end Developer at Luciano B. Goldsmith (2023 – 2025)

- Developed responsive and accessible user interfaces using React, TypeScript, and Tailwind CSS.
- Integrated REST APIs and managed application state with Redux Toolkit to support complex front-end workflows.
- Collaborated with designers and developers in an agile environment to deliver new features and improve existing user experiences.

Web Development Intern at TechWave Solutions (2022 – 2023)

- Built reusable React components and responsive interfaces following design specifications.
- Worked closely with designers and back-end developers to implement new features and integrate APIs.
- Assisted in performance improvements, bug fixing, and usability testing across multiple web applications.

Education

IT Technician, CEPNSA (2019 - 2024)

IT training focused on Software, Hardware and Networks.

Skills

Technical Skills

- UI/UX
- Performance
- Responsive Design
- State Management
- API Integration

Front-end

- React
- TypeScript
- Next.js
- Redux Toolkit
- Zustand
- TailwindCSS
- (S)CSS

Back-end

- AI Integration
- Node.js
- Express
- PostgreSQL
- Git & Github
- Pnpm & Npm
